# About ICDM's Board Director Programme

## Customised Learning Solutions for Specific Needs

Every board has a unique set of challenges. Therefore, ICDM offers bespoke development programmes to help address specific matters at hand. This results-driven training approach is proven to be effective in advancing competencies in the chosen focus areas.

ICDM's Customised Bespoke Programmes (CBP) are curated to cater to all type of boards no matter which stage of development you are at - addressing the 4 practical areas of our Director Competency Framework - Individual Development, Board Engagement, Organisational Development and Stakeholder Engagement.

Working with our diverse range of experienced faculty, some of which who are board practitioners themselves, we will design solutions to meet your learning objectives and support your boards in embracing a culture of continuous improvement towards creating and sustaining value.
