KLBC Roundtable

# Climate Change: IPCC Recent Report and What We Want Out of COP26 in Glasgow

**MONDAY,  
13 SEPT 2021**

The recent IPCC report issued on 9 August 2021 has clearly stated that the climate has changed and caused great impact on humans and we can expect further problems if we do not take meaningful steps to correct it.

In November, COP26 takes place in Glasgow where all the UN signatories come together to try and reach a consensus on what those meaningful steps are. As a trading nation, it is important we understand these expectations and its ramifications to our businesses.
